

**The eclecticism of Fratelli Boffi furnishes boutique hotels as well as glamorous nightclubs.**

**Fratelli Boffi** have always thoroughly expressed themselves in the world of **collective spaces** and **contract** both with custom-made designs and by adapting furniture *ad hoc* from the catalogue collections.

In fact, with its eclectic vision and its predisposition to versatility, the company is able to create any kind of background: from ritzy rooms in a luxury hotel to the glamorous spaces of a discoteque.

## **Hotel Matthiol – Zermatt (Switzerland)**

Immersed in a relaxing, suggestive environment, **Hotel Matthiol** is located in Zermatt, on the slopes of the stately, fascinating Mount Cervino. A haven of peace framed between two big chalets of stone and wood presenting a highly harmonic contrast between rustic and modern styles, between tradition and contemporary design.

In step with this philosophy, the style of Fratelli Boffi has become part of the warm, welcoming furniture of these rooms: the Geranio dresser and the custom-made TV furniture complete the cosy space and the breathtaking view of the Alpine landscape.

The unique charm and care for comfort of this structure reflect the refined cookery and its delightful restaurant, where the craftsmanship of Fratelli Boffi is once again prevailing, with the round dinner tables and the bar stools.

### **Scheda progetto**

**Destination:** Hotel Matthiol

**Location:** Zermatt

**Year of creation:** 2009

**Fratelli Boffi products present:** n.6 tables for restaurant; n. 8 rounded dinner tables; n.6 bar stools; n.10 TV furniture; n.14 dressers Geranio

## **Jimmy'z d'Hiver – Montecarlo (France)**

From the mountainside to the seaside, from the days to the effervescent nights of the Côte d'Azur: for over thirty years the posh **Jimmy'z** has been the meeting point of the international jet set and the busiest club of the French Riviera.

In 2011 architect **Piero Manara** was called to create the new winter site of this special nightclub and he collaborated with Fratelli Boffi to offer customers an exclusive and unique experience.

The winter annex of this historical nightclub features a curvy, soft architecture and the furniture, created ad hoc by the Brianza company, gives life to an intimate, captivating environment.

**Stools, tables and stuffed benches** in several shapes create private lounges as well as convivial rooms, by livening up the club and by conveying it even more fluency, highlighting its glittering, colourful structure and animating the glamorous nights of the Riviera.

**Project Factsheet**
