Fratelli Boffi for the new Frette showroom in Foro Bonaparte in Milan.

The **four-poster Lincoln bed** has been chosen by Frette as one of the settings created to display the household linen collection in the new showroom located in the heart of Milan.

Translucent in its snow-white finishing, the bed has a romantic and sinuous form which is well-suited for those who wish to recreate in the bedroom a relaxed and ethereal atmosphere reconciling relax and a good sleep.

FOCUS ON THE PRODUCT

Collage Sofa – design by Ferruccio Laviani

The mixture of languages is the recurring theme for the **Collage sofa**. In fact, this piece is a real *assemblage* composed of three different structures: a *chesterfield* with its typical *capitonné* workmanship of the leather, a clean and simple design typical of modern sofas instead defines the middle portion and finally a sinuous chaise lounge, in Louis XV style, romantically defines the corner.

Each part shows a meticulous attention to details with different types of coverings: from the thick and aged leather of the chester, to the fabric with geometric patterns in the central portion and beige silk on the seat cushions, ending with an elegant and sweet floral jacquard for the *dormeuse*.

The contradictions and contrasts of shapes is resolved with the masterful wood craftsmanship so that the metamorphosis and seamless passage from minimalism to abundance, from overstuffed to streamlined, in a perpetual game of juxtaposition of styles, giving us the opportunity to select the period we want to sit in according to our daily moods.
