## Midas Touch: products and collections are dressed in gold

### Lui5 A design Phillippe Bestenheider

A classic in its kind, the wooden chair is characterized by a Vienna straw seat, typical of the early 1900s. Through a revisit and a futuristic look, traditional work techniques are practiced with faithfulness and mastery. The curved and soft shapes of the original model leave room to more simplified and crystalline shapes that multiply in space. The pentagonal shape thereby becomes a unit of measurement of the structure and is repeated obsessively, starting from the leg section and following into the panel construction that create the seat, back and armrests.

**Details:** Mahogany wood structure, armchair composed of pentagons. Caned or padded seat, back and armrest. In different coatings. **Dimensions:** cm 103x72x123 h (armchair); cm 96x70x91 h (small armchair).

## Prego! design Ferruccio Laviani

The Prego! table, project designed by Ferruccio Laviani, consists of a round beveled glass top, where **structure and ornament undergo a mutual enhancement**. Supported onto palms of two hands – immense limbs in carved wood decorated by golden cuffs – the dining table revokes Pop influences.

*Details: Base gold leaf or dark bronze leaf; Top: Bronzed glass or tempered (with thickness of 10mm) Dimension: Diameter 200cm; Height:70cm*

---

## Plump pouf design Nigel Coates

Anthropomorphic and rounded shapes characterise the padded Plump family. Defined by very short legs compared to its seat, the family is composed of an armchair, a sofa and two poufs.

*Details: Beechwood or walnut structure. Dimensions: cm. 90 x 90 x 43 h.*

---

### **Kalam design Fratelli Boffi Studio**

Three drawer chest.  
Structure in MDF with a gold or silver leaf finish. Available also in solid wood with sandblasted dark mahogany or sandblasted bleached finish.

***Dimensions:*** cm 120 x 50 x 80 h.
