

Fratelli Boffi custom-made for the Rampoldi restaurant in Monte Carlo

Fratelli Boffi designs a series of custom-made projects for the restyling of the famous Rampoldi restaurant, gone through a complete renovation lead by architect Piero Manara (Casamanara) and inaugurated in June 2016.

Originally opened in 1949, inside the *carré d'or* of the famous district of the Principality, the **Rampoldi restaurant in Monte Carlo** is not simply a restaurant but a historical institution.

Fratelli Boffi's creations have been tailor made exclusively for this location – based on the architect's project – contributing to the convey of a sumptuous and luxurious atmosphere, thanks to the elegant and sophisticated aesthetic of their shapes.

From squared dining tables, to modular benches and padded seats, the décor gives life to a refined

environment, unveiled in every detail and finishing, embellished by suffused lighting, delicate creme-colored nuances and the harmonious chromatic use of the *ton sur ton*.

The soft and sinuous lines of the smoking area, as in every corner of the restaurant, enhance the value of the materials selected, amongst which is the fine art of cabinet-making – characteristic essential to **Fratelli Boffi** – matched to the precious finishings and researched materials.
